Customer Problem Statement Template

LegalEase addresses the difficulty of preparing structured legal-document drafts when users do not have ready access to reusable, customizable drafting support. The statements below reflect the use cases defined in the supplied project specification.

Problem Statement	I am	I am trying to	But	Because	Which makes me feel
PS-1	A startup founder	prepare an employment contract for a new hire	drafting clauses manually is time-consuming	roles, compensation, confidentiality and dates must be organized consistently	uncertain and delayed
PS-2	A freelancer	prepare an NDA before discussing a client project	generic templates require extensive editing	the parties, confidentiality scope and effective date vary by engagement	concerned about missing important terms
PS-3	A landlord	prepare a residential lease draft	formatting and organizing lease terms manually is difficult	property, tenant and lease conditions must be tailored	overwhelmed by repetitive drafting and formatting
