Functional & Performance Testing Template

Date	2 October 2026
Team ID	6abca5b16f395c49751f124d
Project Name	LegalEase: AI-Powered Legal Document Generator
Maximum Marks	

Model Performance Test

The following cases define the acceptance tests to execute on the completed LegalEase build. Actual Result and Pass/Fail should be updated from the final test run if required by submission.

Test Case ID	Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
FT-01	Input Validation	Submit complete and incomplete forms.	Valid request accepted; missing required data rejected.	To be verified	
FT-02	NDA Generation	Submit NDA parties, terms and date.	Gemini returns an NDA-specific structured draft.	To be verified	
FT-03	Employment Contract	Submit employment details.	Employment-specific draft is generated.	To be verified	
FT-04	Edit Document	Generate then modify a clause.	Edited content remains the current version.	To be verified	
FT-05	TXT Download	Download edited draft.	TXT contains latest edited text.	To be verified	
FT-06	DOCX Download	Download edited draft.	DOCX opens with readable professional formatting.	To be verified	
FT-07	PDF Download	Download long edited draft.	PDF opens without clipping and supports multiple pages.	To be verified	
FT-08	Gemini Failure	Simulate API/network error.	Friendly error shown; no fake static response.	To be verified	
PT-01	Interactive Response	Generate representative document.	Completes without UI/backend crash; latency recorded.	To be measured
